## 1. Option Availability

Option availability depends on mode and the customer's system. Use the table below to determine active options:

Available Features	CONTINUOUS	SERIES PROGRESSIVE	SINGLINE INJECTOR	DUALINE HYDRAULIC	DUALINE ELECTRIC
2 Zones*		X	X	X	
2 Intervals*		X	X	X	X
Purge (After blow)**		X	X	X	
Auto Fill Control	X	X	X	X	X
Lube System Cycle & Pressure Switch Monitoring	X	X	X	X	X
Machine Count Cycle Switch Monitoring		X	X	X	X
<b>Lubrication Base</b>	<b>Pump On- Time Options</b>				
Time		X		X	
Machine Cycles		X		X	
Dualine Half Cycle				X	X
Dualine Full Cycle				X	X
<b>Idle Base</b>	<b>Pump Off Time Options</b>				
Time		X	X	X	X
Machine Cycles		X	X	X	X

\* Via parameter, customer may select **either** 2 zones **or** 2 intervals.

\*\* Purge is not available in 2 zone systems or with Dualine electric.
